

Geopolitical Risk Index

Data updated as of 31 August 2026

(0-100)

The Geopolitical Risk Index (GRI) currently covers 51 countries identified as priorities in terms of Italy's strategic and economic exposure. The index aggregates three risk dimensions:

Security

Armed conflict, terrorism, social unrest, violent crime. Their impact on physical assets, people and supply chains.

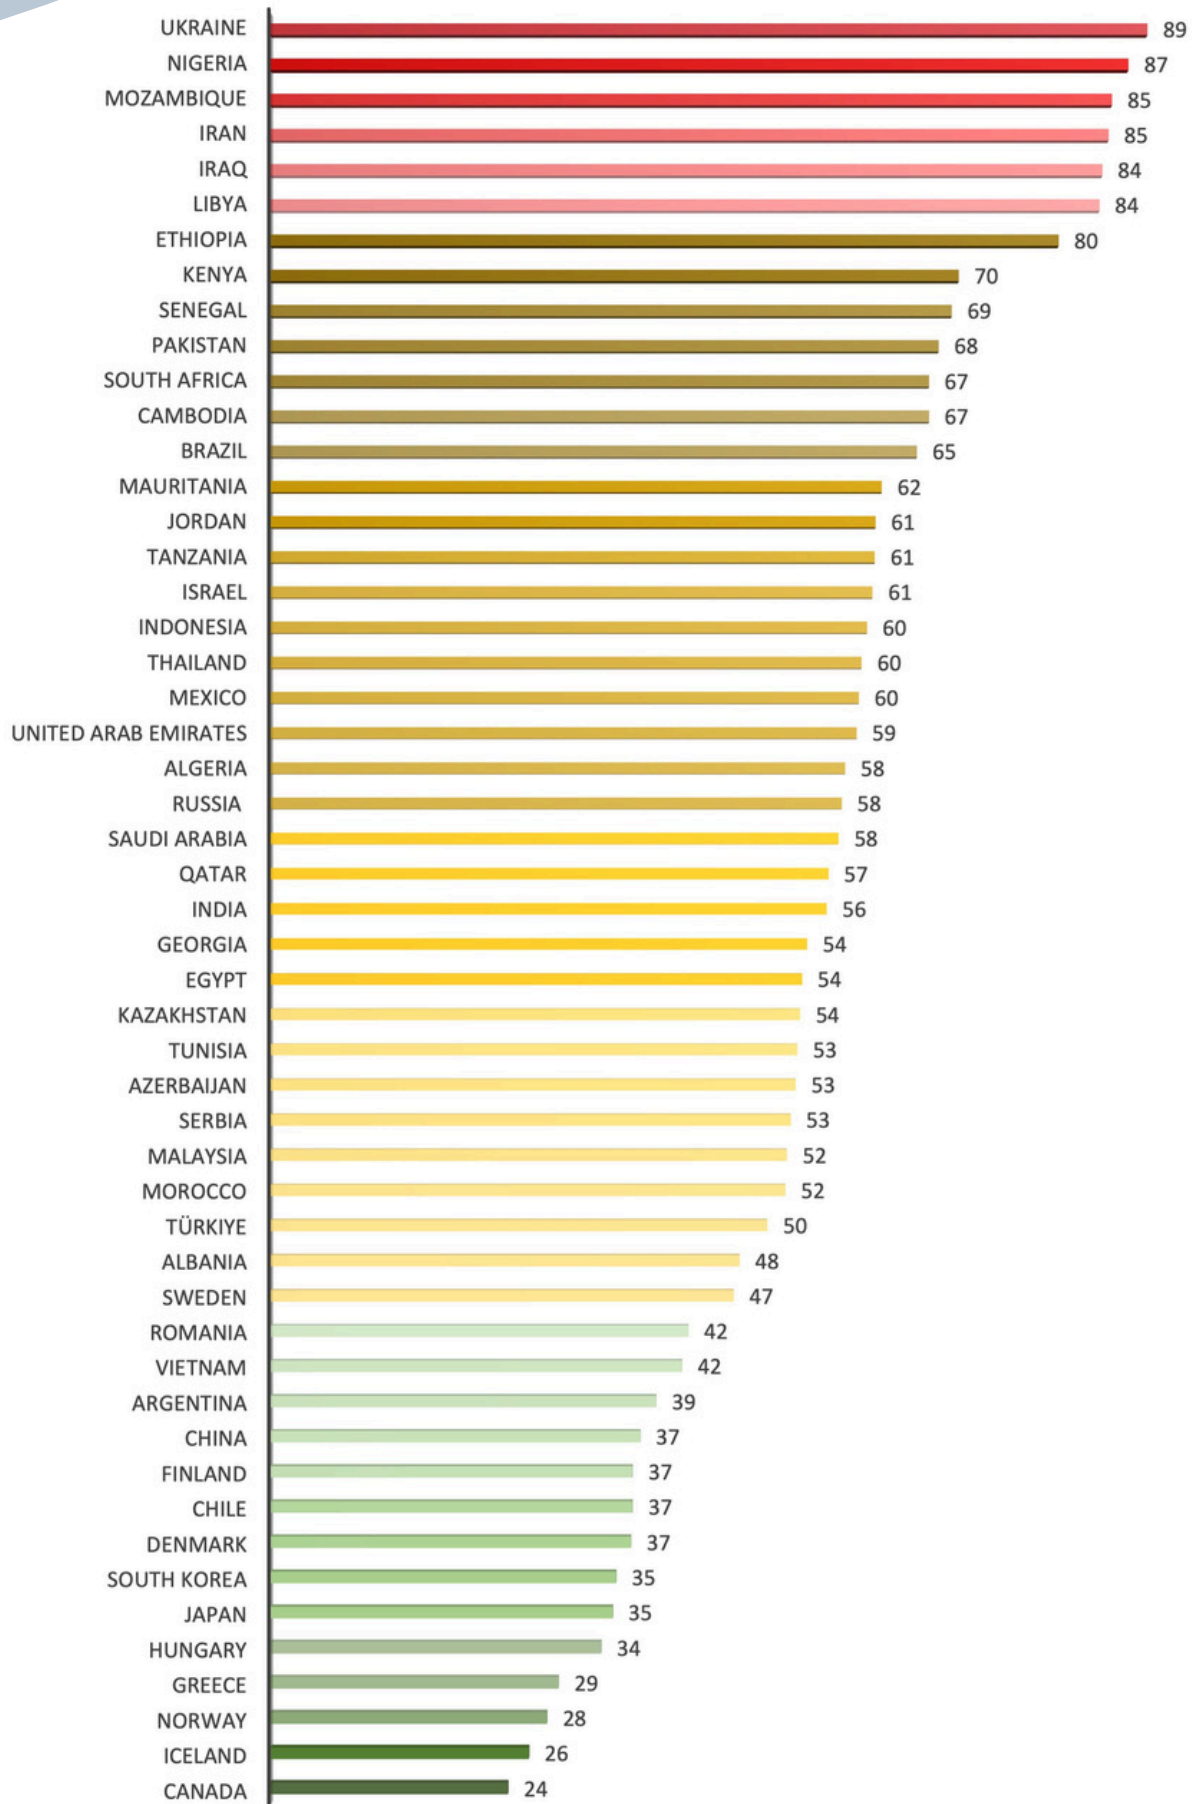

Regulatory

Regulatory changes (sanctions, tariffs, export restrictions), and their impact on trade, investment, labour and financial flows.

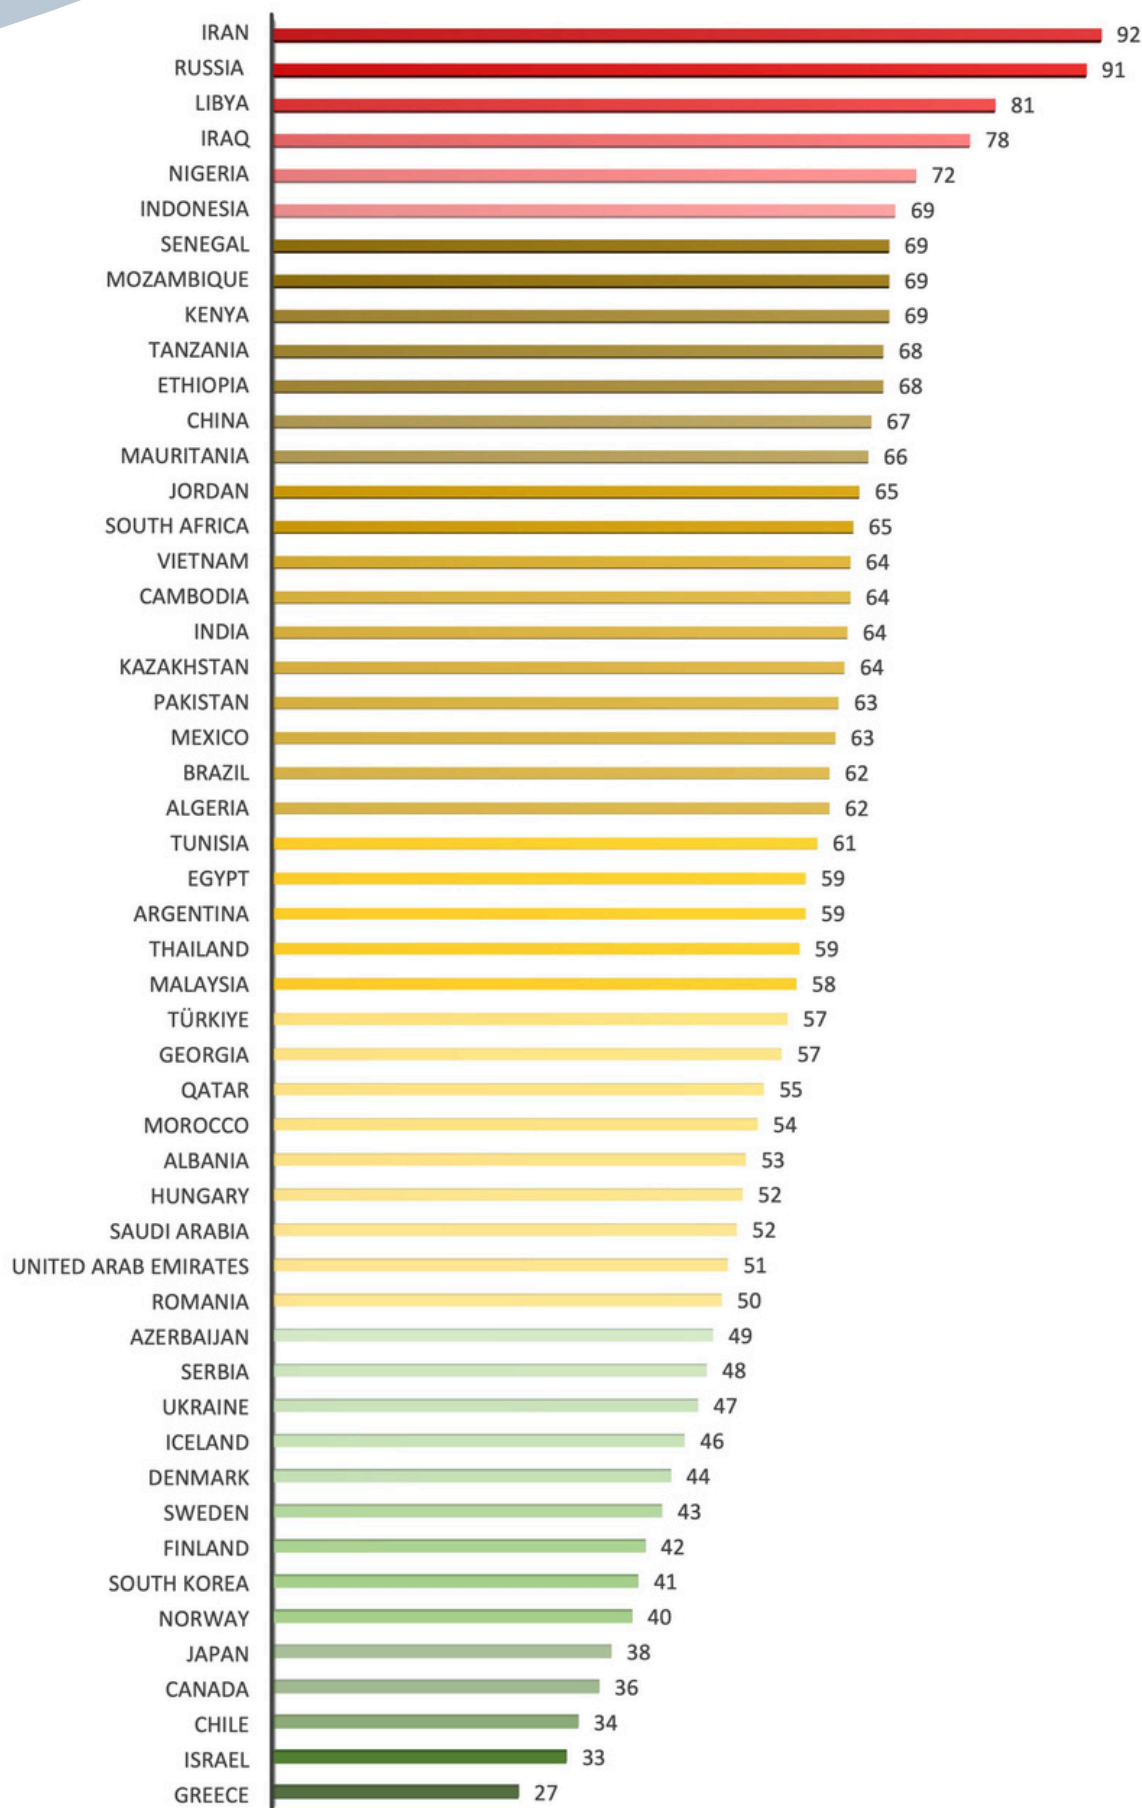

Governance

Rule of law, reliability of the judiciary, contract enforcement and levels of corruption.
